MAUA BANK,

CALLE CANGALLO, Nos 101—103

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, and also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a m. till 4 p.m.

P. P. MAUÁ & Co.
WILLIAM LESLIE.

Royal Insurance Company.

FIRE AND LIFE.

CAPITAL TWO MILLIONS STERLING.

This important company, in many respects the greatest of its kind in the present age, has appointed an agency in this city. The head-offices are in London and Liverpool with branches in Dublin, Edinburgh, Glasgow, Manchester, Bristol, Birmingham, Sheffield, Leeds, Newcastle, Southampton, Montreal, Toronto and other cities.

The ROYAL is remarkable; for the promptitude and liberality of its settlements; for the largest life bonuses (£2 per cent per annum) ever continuously declared during 15 years by any co.; for the enormous extent of its transactions, shewing £2 00,000 in new life assurances for 1863, and a Fire revenue of £300,000 per annum; for its security, which has given rise to the proverb "as safe as the Royal;" for the accumulated funds in hand, over one million sterling; for its annual income, over half-a-million sterling; and for the correct calculation of its mortality tables. Hence the English press of all countries, including over 90 leading papers, speaks in the highest terms of this company.

The report for 1862 shews that all the property of the Co. amounting to £816,050 is real and substantial property:" the amount now exceeds one million sterling. The increase, during 14 years, or Fire business was 900 per cent, and on Life 1350 per cent.

MESSRS. H. A. GREEN AND Co. are authorised to issue policies for Fire and Life to a very large amount, at moderate premiums, the Co. being anxious to extend its foreign business, which already shews an annual revenue of £200,000. Life claims can be settled without reference to England. For further particulars please apply to

EDITOR'S TABLE.

On Sunday morning the Mole was crowded. Some hundreds assembled to witness the departure of the Pavon, with a few gold-seekers on board: we wish them the greatest good luck. Apropos, we hear that Dr. Rawson went in her also to Rosario, and from thence to Santa Fé and Parana. Of course, all sorts of rumors are current as to the cause of the Minister's trip. The prevailing opinion is, that the Paraguayans are expected at La Paz, and some one must look after the matter before it is too late.

The Angora Goat Company (limited) is the great talk of the day. Several gentlemen, who take an interest in this breed, and believe this climate well adapted for these goats, are trying to form a company under the above name. If we had what Dr. Rawson calls a go-a-head administration, then we should not be surprised to see the Government giving an estancia with house, corrales, and galpones, free to the company to start the enterprise, but unfortunately such things are not to be expected in Buenos Ayres; however, some very influential foreign gentlemen have taken the matter up, and we hope to see it carried out. The auction of these far-famed goats will take place at Mr. Billinghurst's, on Thursday, the 10th inst., and we have no doubt it will be well attended.

The Municipality has sent to the Goverment a note, stating that they may refuse in toto to be ruled by the laws of Congress, still less by the Provincial Legislature; in fact, they refuse to acknowledge any authority. These gentlemen manage an income of some twenty millions currency, and it is extremely pleasant to have no interference whatever.

The Oriental Government has ordered the Chief of Police to call the editors of the newspapers to his office and request them to be more temperate in their remarks when speaking of the Brazilians. This, we regret to say, was most necessary, as the insulting names our Oriental colleagues give the Brazilians are most improper.

Mr. Peña, the President's aide, did not take the whole of the big prize at the last lottery. We understand, however, he drew the half, and that he purposes giving a grand dinner party in honor of the event.

Respecting the gold question, we have been informed on good authority that President Mitre has received a magnificent nugget. This, we suppose, will put an end to all question about the matter.

Flores' Secretary, Bustamente, left on Saturday for the Uruguay. We understand that he has concluded the purchase of one of our river steamers, which will be shortly armed and fitted up.

The steamer Memnon will leave on the 12th. She is a very fine steamer, and offers a fine opportunity to our friends who purpose returning.

To-night the general meeting of the subscribers to the British Library will be held at 8 o'clock. We are requested to call the attention of the members. The names of the generous subscribers who so nobly responded to the call of the collectors we publish in another column. We hope now that the Library is rescued from insolvency.

Wild oats are very common in this country, but a regular oat crop is unknown. Yesterday a resident of San Isidro brought to our office a sample of some oats growing in his quinta. The stalk which he brought us measures ten feet long: it appears that oats grow to an extraordinary height in San Isidro. The President is expected out at San Isidro towards the end of the month, and Minister Cardenas, who is looking for a suburban retreat, is also likely to locate in that fashionable but dusty town.

Whilst the military performances were going on in the Plaza on Sunday a black man behaved himself most uncouthly, stating that all Rivas said was blarney, as he for one had not yet got paid for the time he served. The wife of Mr. Cazon, the Chief of Police, who happened to be standing by, did her best to silence the fellow, but he only became more insulting: he caused quite a row in the Plaza, and we believe was ultimately sent to jail.

We hear of three Englishmen who are about to load carts with provisions in Rosario for the diggings. They are embarking in this speculation in the hopes that it will prove as remunerative here as in California and Australia.

Flores' celebrated squadron has gone up the Rio Negro in company with a few Brazilian gunboats: the Oriental Government has declared all Flores' vessels to be pirates, so that any one who is able may seize them.

The Indians have suffered a great defeat in Cordova at the Rio Cuarto: all the cattle they had swept away was retaken, and several of the Indians were killed.

RIVER PLATE CONFLAGRATION.

Only a week ago our official colleague alarmed the city by an article headed "Conflagration in the River Plate." Specie rose suddenly, the national bonds fell considerably, and under the impression that what our colleague said was gospel, the opinion prevailed that President Mitre was about to join Flores. Next day, however, the 'Nacion Argentina' informed the public that the impending conflagration was an editorial dream, and that the Government had nothing whatever to do with the article in question.

The reasons which our colleage adduced to prove the impending conflagration were simple enough.

The foreign ministers had dared to interfere in the Oriental question; they refused to allow Baron Tamandare to carry out his threats respecting foreign vessels and contraband of war; the Argentine Government would and should therefore interpose, join Flores, upset Aguirre, and ergo a River Plate conflagration—but all this has proved to be nonsense. The Argentine Government has not interposed, has not joined Flores, has not upset Aguirre, and still we are nearer a River Plate conflagration than ever.

The mistake our colleague fell into was this, that his conflagration was to be caused by President Mitre revindicating Argentine rights in the Oriental question against all the world, when, if the truth be told, President Mitre had no more idea of troubling himself on the subject than he had of opposing Flores.

The 'Nacion Argentina' is infinitely more bellicose than the Government of which it is the organ, but nevertheless it has failed to inform the public of the real causes of an approaching conflagration.

The latest news from up the rivers is of a character to excite grave fears for the peace of the River Plate. In Corrientes, Colonel Caceres it was said was recruiting—the Paraguayan agent had left Corrientes by land for Asuncion, and had not yet returned. In La Paz it was openly stated that 10,000 Paraguayan troops were hourly expected, and the principal men hinted that on their arrival there would be a general rising of the whole country against the Brazilians. Here then we come to the first spark of the mooted conflagration, for if the Paraguayan troops descend the river and land in Entre Rios, there can be no doubt the matter has been previously well arranged, as it is not likely President Lopez would land his men in Entre Rios if it was an enemy's country.

It is perfectly absurd to chime in with the nonsense and stuff published here about Paraguay, because people will find their mistake out much sooner than they expect. Of course, the moment the Paraguayans land in Entre Rios, all our politicians will say—"Send Murature and the squadron up to Asuncion and bombard the place, the river is unusually high, we have plenty of steamers, and, if necessary, can buy more; let us, therefore, carry the war into Paraguay at all hazards."

But we tell our readers that this is all moonshine, and that the combined squadrons of Flores, Brazil, and Buenos Ayres, have as much chance of passing Humaitá as they have of holding the river Plate and Uruguay against all the world. Whatever chance President Mitre has of landing his soldiers in Entre Rios, and aided with the Brazilians, fighting the Paraguayans and Entre Rianos combined, he is utterly impotent to carry the war into Paraguay.

We earnestly hope that the present impending storm will blow over, but we believe things must be in rather a serious way when the Minister of Government leaves at the present moment for Parana. We suppose Murature will be ordered to La Paz, for there he is more wanted than in front of Gualeguaychú where we hear he is losing his men daily, but we doubt if Murature is able to prevent the landing of the Paraguayans: we would advise him to take up a few Brazilian gunboats along with him.

Our colleague makes one mistake, however, when he asserts that the cause of all the River Plate troubles is the Oriental Government. This is so manifestly incorrect that we feel bound to contradict it. Before this revolution commenced the republic of the Uruguay was one of the most peaceable and prosperous states in South America. We link ourselves with no party or clique, but we feel bound to repeat the words of President Mitre, "that President Berro's Government was the best the Oriental Republic ever had."

Flores is the cause of all the present trouble. Had we sunk him and his two followers in the little boat which took him across, how much woe and misfortune would the Banda Oriental have been spared? But we let him go; we let him kindle the torch to burn our neighbor's premises, and now the conflagration has caught our own!

THE NEW GOLD DISCOVERIES.

We have positive information that among the persons in this city possessing earliest information about the new gold mines, was General Mitre, in whose cabinet may be seen a splendid nugget sent to Major Rickard and presented by him to the President. Subsequently Messrs. Moreno, Mansilla, and others saw rich nuggets from the Castaño fields, which placed beyond doubt the truth of the discoveries and made the same more generally known.

It is difficult to guess why General Mitre and the local papers kept so important a discovery secret, since it must be known to the public from private sources. If there was any idea of keeping the mine as state property, such was absurd, and all the obstacles created by the San Juan authorities will be swept away by the impetus of 100,000 miners.

The 'Riojano' of Oct. 21st gives some interesting particulars of the news of the gold-fields which had then reached Rioja. "A great excitement was felt all over the province, on the discovery of the Castaño gold-fields. The nuggets brought to this city, and shewn to everybody, are so rich and varied as to baffle all description; the virgin ore being a network of threads and lumps of the precious metal. The first lot extracted consisted of a ton (medio cajon) of ore, and this mine of fabulous riches has a thousand claimants all at law with each other, without counting the numberless robberies and tricks going on at Castaño. An experienced assayer examined the metals and reports the *leg* to be 1.17 marks of pure gold which is equivalent to *a thousand ounces of gold* per cajon (£2,000 sterling per ton). The stories of Aladdin and the Arabian Nights are outdone: here is the gold to be seen by every one, and the alarm of the discovery is intense."

The 'Zonda' of San Juan says "every day the wonder increases. The latest ores taken to the mining-works at Hilario give *three hundred and twenty-five* pounds pure gold per cajon (£8,000 sterling per ton) of quartz. The discoveries are at Castaño, in Major Rickard's property, and his agent, D. Antonio Oro, has presented to the Diputado de Minas a petition praying for the embargo and seizure of all the metals extracted. The matter is far more important than we thought."

As soon as the news reaches the surrounding provinces there will be a general 'stampede,' and we very much fear the Argentine Central Railway works will be deserted. In like manner the various frontier garrisons will probably throw down the musket, and clear out for the gold-fields to handle the pick-axe.

When the fever spreads to Buenos Ayres, our labor market will be paralysed, as all able-bodied and unmarried men will be off for San Juan. At first it will be productive of grave inconvenience, and as 'Punch' says, "if you want a thing done you must do it yourself." But in the end it will cause immense benefits to accrue to the country, and we are certainly on the eve of the most remarkable change ever seen in these countries.

The announcement will fall like an electric shock in England, and the Liverpool steamers to the River Plate will be crowded with adventurers. From North America they will come mostly by Panamá and the Pacific, crossing the Andes from Chile. Sailing ships from Melbourne will cross over to Valparaiso with half a-million of people from every nation and clime.

One of the best speculations will be, to take up a convoy of goods, groceries, ready-made clothing, &c.; and we believe some foreigners are about to organise such an expedition, with 15 or 20 well-armed men in a party.

Besides the gentlemen who left on Sunday, per Pavon, *en route* for Castaño, we learn by private letters that several respectable parties have already started from Cordoba, and among them, we suppose, our eccentric friend "Erin," whose graphic powers of description will shortly enable us to judge exactly of the state of affairs in the new El Dorado.

Even those who at first doubted the wonderful discoveries, now admit that the 'Standard' has turned out correct, and all town is talking about the gold mines, so long ignored by our colleagues. Before Christmas we expect the gold fever will be at its height, and single men and small shopkeepers will be embarking at the Mole to bid adieu for some time to Buenos Ayres, shouting, "hurrah for the gold mines: we're off to Castaño."

LATEST FROM THE GOLD FIELDS.

As we announced a month ago, the gold discoveries at Castaño, in San Juan, have been on an extraordinary scale, and in spite of the efforts to conceal the whole matter from the public, the secret transpired to such a degree that the fever broke out and spread with amazing rapidity.

Letters from Cordoba by Saturday's mail, state that there is not a peon remaining in that city, as they have all cleared out en masse for the gold-fields, and people are reduced to do all domestic and other kind of work themselves. For more than 200 leagues from the mining region, the shock of this new earthquake has been felt, and all the able-bodied men are hurrying to the El Dorado of the Andes.

By the time we write the San Juan gold-mines will be flooded not only with adventurers from these provinces, but with thousands of miners from Chile, that country being only two days distant.

Major Rickard, on whose property the gold-fields lie, had reached Cordoba on the 12th ult., and was hurrying in all haste to Tontal and Hilario, fearful that the works of the silver-mining company would be completely abandoned. His agent, Sor. Oro, had embargoed the mine of Castaño as Rickard's property, but no power on earth will be able to resist an influx of miners, and it will happen as in Australia, that the Government must allow them to dig in claims, on payment of a small licence-fee which will go to compensate Rickard.

The first samples extracted were taken to Hilario, where luckily the machinery is on the spot to "beneficiar" the auriferous quartz. The returns, as published, shew an almost fabulous value, a thousand ounces of gold to the *cajon*, and even 325 lb. pure metal to the *cajon* (which is a measure of two tons) of quartz. Such figures indicate pretty clearly that silver will no longer be worth working, and we can readily understand how the two fellows (mentioned by our correspondent) picked up 560 ounces of gold in a couple of days.

If there was any object in cloaking up these discoveries a month after the "Standard" had announced them on good authority, such end is completely frustrated, and some of the parties who left this city, last Sunday, for the diggings, will soon send us fuller accounts.

THE CASTAÑA GOLD-MINES.

"It is better to be born lucky than rich" says the adage, and our countryman of the San Juan silver-mining Co. is a proof of the truth of it. Mr. Francis Ignacius Rickard left Dublin to seek his fortune, some eight years ago, with the qualifications of a clear head, a determined purpose, a good education and a winning tongue. His history during the last three years has been a series of fortunate strokes, too well known to require repetition, but when an apparent difficulty presented itself in his path, it turns out to be a rock of gold, a climax to the good tricks which Dame Fortune has been playing her spoiled child.

He came to B. Ayres last month with the view of arranging with the remaining share-holders of a company which had become merged in himself. Everybody said "Rickard expects to make a good thing of it, and therefore buys up all the shares": this he himself admitted and succeeded in possessing himself of the whole enterprise. Suddenly before he has time to sign the formulary documents, he is called away by the most astounding news which ever burst on the Argentine Republic since its Independence.

"Gold-fields in San Juan, actually in Rickard's mine of Castaño."

Did Major Rickard know of this gold when he came to B. Ayres? Did he know of it, when he bought up the shareholders in San Juan, and virtually made himself proprietor of the Hilario works and of the company? Did he light on the hidden treasure in some such excursion as when he found the flint arrow-heads of the ancient Quichuas? Did he bury the secret in his breast, dream of treasures to exceed those of Monte-cristo, and move about among us knowing that in his head was the future of the Argentine republic?

The fact of his recent purchase of Castaño, may favor such suspicions as the above. But it must be borne in mind that he also purchased 87 other claims, and chance may have thrown a gold-mine among the number.

In any case it is certain that Major Rickard will be unable to hold possession of the mine, and although the Mining Co. refused to buy or speculate in minerals, we feel assured that Mr. Rickard would not have kept from them so important a fact as the gold of Castaño were he aware of its existence. Neither would he have left Hilario in such case, but rather commenced working the gold veins as fast as possible on his own account.

The Hilario works will now have a profitable business, if only to amalgamate all the gold of Castaño, and we may count ultimately on a splendid issue to the enterprises begun under the San Juan Silver Mining Co.

GRAND MILITARY FUNCTION.

On Sunday morning the blessing of the new flag of the 2nd batt. of the line took place at the Cathedral, in presence of a multitude of persons. The battalion was ranged down the church, and, strange enough, the soldiers were uncovered although it is costomary in Europe to wear their 'kepies.' The sponsor of the flag was Col. Rivas and the Minister of War, Gens, Nazar and Paunero and other chiefs assisted *en grande tenue*. At the conclusion of the military mass, the men marched out of church very irregularly: they wore the uniforms of Chasseurs de Vincennes which has caused so much annoyance to our French residents, a large proportion of them being colored men.

Colonel Orma drew up the battalion in front of the Cathedral steps, where a great number of citizens, housemaids and children were arrayed looking at their manœuvres. Colonel Rivas in handing over the new flag to the youthful ensign made a brilliant harangue, reminding the veterans of their oath to the flag—that flag which was the bulwark of Liberty, and would yet gain new glories where freedom was to be won or honor vindicated. His prancing charger gave a fine effect to the scene and the youthful spectators must have been greatly impressed. A faint cheer responded to the address of the hero of Rioja, and then Col. Orma, as chief of the batt. came forward to make his address. It would be impossible to give the enthusiastic appeals of this officer to the military ardor of his men, but we could not help thinking they paid him little attention and will probably (most of them) clear out for the new gold fields before the new flag smells powder. Colonel Orma made his horse curvet fearfully, and his waving plume looked very handsome, as the sunshine glistened on the serried bayonets.

Suddenly the word was given to "fire," and the troops levelling their pieces in front of the people on the steps, only six feet distant, fired a blank salute. This scandalous outrage had its effect: among the accidents, we learn that Mr. Cerro's hat was destroyed with the wadding of one of the pieces, and that gentleman's cheek injured with a charge of powder which drew blood and disfigured his face. After this, the men were formed in companies and marched off, the band playing martial airs.

In the evening there was a grand dinner at the Hotel de la Paix, at which President Mitre and other celebrities attended. A band playing in the court-yard attracted a great crowd of little boys, and the entrance was perfectly besieged. Of course the dinner was first-rate, and served on "the Derqui" silver-plate, and when the wine began to circulate the usual number of patriotic toasts was given. The affair terminated at 10.30 when all happly returned to their several homes.

THE EIGHTH OF NOVEMBER.

This day five years the city of Buenos Ayres was in a state of alarm, the legionaries of Urquiza being at the gates, and the garrison unable to hold out against overpowering odds. From Barracas to Palermo the red ponchos encircled the fated capital, and the inhabitants anticipated the horrors of a sack.

Governor Llavallol exerted himself to bring about an accommodation which would save Buenos Ayres from the imminent peril, without compromising the dignity of a city which had ever been the centre of civilization and progress. In so critical a moment, Gen. Francisco Lopez of Paraguay offered his friendly office of mediator, and had the pleasure to see his efforts crowned with success. On the memorable 8th of November he signed the final agreement at San José de Flores, where Urquiza had established his headquarters, and from that day the Argentine Republic and especially its capital became indebted in a signal manner to the individual who now so wisely and prosperously rules Paraguay.

Well do we remember the crowds of thankful citizens who marched through the streets singing the Argentine and Paraguayan national anthems, and serenading General Lopez at his residence in Calle Cuyo. At that time the English, French, and American marines were on guard at the custom-house, and two British howitzers were mounted at the gate which now forms the entrance to the Government house. In three days Buenos Ayres abandoned itself to the most exuberant joy, and hailed General Lopez as the precursor of a new and happy era.

To-day the political atmosphere is clouded, and relations with Paraguay are on a very insecure footing, but it may be well for our legislators to pause ere plunging the country again into the horrors we so narrowly escaped, and arraying our forces in hostility against the ruler of Paraguay, to whom Buenos Ayres is so much indebted.

LATEST FROM THE BRAZILIAN ARMY.

The following curious letter we find in the Rio Grande papers, written by a Brazilian officer who came to Cerro Largo :—

"After passing a great many hardships for two days, we arrived here. On the 12th we left Yaguaron, entered the Oriental territory, and encamped. On the 13th we marched three leagues; it rained all night; the General wished to encamp the next day, but about eight o'clock in the morning some messengers from Cerro Largo arrived with the news that Astrojildo, with the National Guards, and Fidelis, with the 'Colorados,' had encamped opposite the garrison of Cerro Largo. Two of Fidelis's officers had been killed, one of them, Captain Justino, brother to the Lieutenant-Colonel, Astrajildo.

"General Mena, hearing this, ordered the brigade to march, but the 3d Battalion of Infantry, being tired by the forced march of the day previous, the 4th Regiment of Horse took their place, who had only two hours' repose, and arrived at the Cerro Largo.

"On the 14th, at seven o'clock in the morning, the firing began. All day we were ready, but did not attack, as we were waiting for the infantry to come up, who, although they had an escort to bring their arms, did not arrive until the 16th, at five o'clock in the evening.

"Lieutenant-Colonel Astrajildo, and Colonel Fidelis, kept up the firing. On the 15th, at five in the evening, they went nearer to the village, and kept firing on one another until dusk; but this time the enemy got under cover on the other side of the Tacuary, and our forces retired to rest themselves and the horses.

"On the 19th we all mounted on horseback very early, and marched towards the village; the guides went on before us, but they soon returned with the news that the enemy had evacuated the place."

Specie was very firm to-day notwithstanding the millions of paper money which the bank will burn on Wednesday. Few believe that specie will depreciate much before the end of the year, as the market is at present very unsettled.

There was very little business done on 'Change to-day, as merchants are waiting to hear the news by the Payta

Mr. Rom's Weekly Review, replete with interesting statistics, respecting the wool crop of this year, was much spoken of on 'Change.

The Memnon seems to have got a steam lighter to discharge and load her. She leaves for Liverpool and intermediate ports on the 12th inst., and has more than three-fourths of her cargo already engaged.

We could hear of no wool sales of importance to-day: we suppose that the wind and dust in the plaza prevented the farmers from opening the carts.

Rams—Rams—Rams.

The undersigned, in calling attention to his large and superior stock of Rams and Breeding Sheep, begs to inform his Friends in the Camp that he has on hands a splendid collection of animals, from Three Hundred to Five Thousand Dollars, mje., and is confident that each in its class will compete with anything in the province.
In the "Rambouillet type" will be found some fine specimens of the pure blood, besides crossings from the "Merino," possessing the size, shape, and length of staple for which this class is so much admired.
In the "Negrette" he has also some beautiful animals of pure blood, as likewise the "Negrette" drawn from the "fine Merino," a "Cria" remarkable for compact shape and close heavy wool.
In addition to the above he wishes to draw especial attention to his celebrated Argentine breed, between the "Rambouillet" and "Negrette Ewe," and which, after seven years' experience, he can fully recommend as combining size and shape with length and weight of wool—qualities so anxiously looked for by all experienced sheep-farmers, and which have given so much satisfaction to those who have already purchased of this class. In buying the above in half three-quarter, and pure blood, already acclimatized, there is an immense advantage, as Rams reared in this country are not so delicate and understand the winter better than imported animals, besides being sold much cheaper, and only requiring ordinary care.
He can likewise supply the above classes in Ewes, either picked or by the hundred, and wishes to remark that all have been in prime condition throughout the past summer.

HEALTH FOR THE INVALID
BY
HOLLOWAY'S PILLS.

LOSS OF APPETITE—LOSS OF STRENGTH—LOSS OF HEALTH.
The marvellous effect of this fine medicine upon the system is such as to immediately rally all the vital functions, the appetite is soon restored, a full flow of spirits quickly follows, the body becomes immensely invigorated with a certainty of restored health: fresh air and a little exercise are necessary to bring about a permanent state of things. Holloway's Pills impart tone and energy to the most delicate constitutions, and in a manner as to astonish all who take them. By their extraordinary virtues they have obtained the largest sale of any medicine in the world.

HEAD, LUNGS, AND STOMACH.
Look to the regularity of the functions of these foundations of vitality. Holloway's Pills restore to order the slightest departure from the proper action, and therefore may be considered as the regulators of the main spring of human life. Apoplexy can always be prevented if the proper action of the bowels be attended to, which this famous medicine never fails to accomplish. Disorders of the head and heart often terminate suddenly and fatally from obstructions in the system, which might generally be prevented by taking small and regular doses of this fine corrective.

FEMALE DISORDERS.
No medicine can be so infallibly relied upon for overcoming all obstructions as these Pills. They never fail to restore a healthy action throughout the system. The printed instructions will enable all to correct the first symptoms of disease, and avert many serious maladies. Holloway's Pills soon change the sickly and sallow complexion, thus renewing the bloom of health. To females entering into womanhood, or at the turn of life, these Pills will be found invaluable. They should be taken two or three times a week as a safe-guard against dropsy, headaches, palpitations of the heart, and all nervous affections, so distressing at certain periods.

SICK HEADACHE, INDIGESTION OR FOUL STOMACH, AND DISORDERED LIVER.
In such a deranged state of health the food is decomposed instead of being digested, and proves poisonous rather than nutritious. This derangement can be at once set right by a course of these purifying and digestive Pills, which have acquired for themselves an imperishable fame for the mastery they have constantly exercised over the digestive organs. Holloway's Pills increase the appetite, regulate the liver, repress biliousness, healthily stimulate the kidneys, and move the bowels in a more wholesome and natural manner than any other medicine.

DISORDERS INCIDENTAL TO CHILDREN.
The liver and stomach of children are, from many causes, often out of order, as they are allowed to eat many things that would disagree with their parents, hence their blood becomes impure, and liable to take any disease that is prevalent, and that in the worst form. One Pill, reduced to a powder, and put into a little water, given occasionally to children of twelve months old, and to those of three or four years, three Pills, and to others of seven years of age, four Pills—will always make children look blooming and healthy. Seventy-five out of every hundred do not reach the age of maturity. Holloway's Pills would not only preserve their health, but save the lives of thousands. Many people foolishly think that children only require a little medicine twice a year.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

Ague	Female Irregularities	Rheumatism
Asthma	Fevers of all kinds	Retention of Urine
Bilious Complaints	Fits	Scrofula, or King's Evil
Blotches on the Skin	Gout	Sore throats
Bowel Complaints	Head-ache	Stone and Gravel

* There is a considerable saving by taking the large sizes.
N.B.—Direction to the guidance of patients in every disorder are affixed to each Pot, and can be had in any language, even in Chinese.

Holloway's Ointment and Pills

Have, over and over again, proved the best friends to persons afflicted with ulcerations, bad legs, sores, abscesses, fistulas, and other painful and complicated complaints. Printed and very plain directions for the application of the Ointment are wrapped around each pot. Holloway's alternative Pills should be taken throughout the progress of the cure, to maintain the blood in a state of perfect purity, and to prevent the health of the whole body being jeopardised by the local ailment: bad legs, old sore's great grievance, are thus readily cured, without confining the patient to bed, or withdrawing from him the nutritious diet and generous support so imperatively demanded when weakening disease attacks advanced years or constitutions evincing premature decrepitude.

SAVINGS BANK.

BANK MAUA AND CO.

No. 103 Calle de Cangallo,
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres, September 19, 1863.

P.p. Mauá and Co.
WILLIAM LESLIE,

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes, can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

Cargo will be received on board of the steamers 48 hours after their arrival, to be delivered in any part of the United Kingdom, or on the Continent, being forwarded by railway and steamer for account of the Company, the bills of lading being signed with these conditions.

As the object of the Company is to extend and facilitate the existing traffic between Europe and the River Plate, the rates of freight will be very moderate.

Specie and Parcels will be received until the day before the steamers leave.

In order to facilitate immigration to these countries the rates have been reduced as follows—

1st Class.....£35.
2nd „ .....£25.
3rd „ .....£16.

Return Tickets will be issued for six months at the following rates—

1st Class.....£65.
2nd „ .....£45.
3rd „ .....£30.

These boats are excellent opportunities for families visiting Europe, more especially when consisting of Ladies and Children, having large ladies' cabin, and carrying an experienced stewardess.

BENSON'S WATCHES AND CLOCKS.

Watch and Clock Maker, by Special Appointment, to His Royal Highness The Prince of Wales.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfectness or carefully adjusted mechanism."—Times, June 11 1862.

"A triumph of ingenuity."—Telegraph March 11 1862.

"A more splendid and exquisitely finished piece of mechanism we have never seen."—Standard, June 17 1862.

"Some of them are of great beauty and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—Times, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—Illustrated London News, November 8, 1862.

PRONOUNCED BY CONNOISSEURS to be the ONLY GOOD SAUCE and applicable to EVERY VARIETY of DISH

Extract of a LETTER from a MEDICAL GENTLEMAN at Madras to his Brother in WORCESTERSHIRE May, 1851.

"Tell LEA & PERRINS that their SAUCE is highly esteemed in India, and is, in my opinion, the most palatable as well as the most wholesome Sauce that is made."

SEASONABLE NOTICE.

EXTENSIVE FRAUDS.

LEA AND PERRINS having discovered that several of the Foreign Markets have been supplied with SPURIOUS IMITATIONS of their WORCESTERSHIRE SAUCE, the labels of which closely resemble those of the genuine Sauce, and in one or more instances with the names of L. & P. forged; they have deemed it their duty to caution the public, and to request purchasers to see that the names of LEA & PERRINS are upon the "Wrapper, Label, Stopper and Bottle."

L. & P. further give notice that they will proceed against any one who may infringe upon their right, either by manufacturing or vending such imitations, and have instructed their correspondents in various parts of the world, to advise them of such infringements.
